

SPLIT BEAM TORQUE WRENCHES

These split beam torque wrenches are engineered for consistent, high-accuracy torque application in demanding shop and field environments. Designed for durability and ease of use, they minimize the need for recalibration while delivering reliable performance across a wide operating range.

SEALED ONE-WAY FLEXIBLE RATCHET HEAD
APPLIES TORQUE ONLY AND PREVENTS FASTENER REMOVAL. FLEX HEAD DESIGN IMPROVES ACCESS IN TIGHT OR OBSTRUCTED WORK AREAS

SPLIT-BEAM DESIGN
ELIMINATES COMPRESSION SPRING FOR IMPROVED ACCURACY AND EXTENDED CALIBRATION LIFE. DOES NOT NEED TO BE SET TO 0 AFTER USE

ERGONOMIC TPR HANDLE
PROVIDES A SECURE, COMFORTABLE GRIP RESISTANT TO OILS AND SHOP CHEMICALS

PRECISION CALIBRATED
ACCURATE TO ±4% FOR DEPENDABLE PERFORMANCE

CALIBRATION CERTIFICATE INCLUDED
MEETS OR EXCEEDS APPLICABLE ANSI/ASME TORQUE STANDARDS

HIGH-VISIBILITY SCALE WINDOW
CLEARLY DISPLAYS TORQUE SETTINGS FOR QUICK REFERENCE

FINGERTIP ADJUSTMENT KNOB
KNURLED CONTROL ALLOWS FAST, PRECISE TORQUE SETTING ACROSS THE FULL RANGE

PRODUCT SPECIFICATIONS

PROD. NO.	MOD. NO.	DRIVE	TORQUE RANGE
718926	JSTW-38100	3/8"	20–100 ft-lb
718927	JSTW-12250	1/2"	40–250 ft-lb
