

NEW AND IMPROVED

KneePro

ULTRA FLEX®

Ultra durable and flexible outer shell holds up well to impact and sharp objects

Unique, hinged design is ergonomic by moving with your knees and stays on while kneeling, walking, and working

Upgraded, proprietary foam blend with new ventilation holes provide maximum comfort, stability, and breathability

Non-marking grip strip can be safely used on any surface

Improved Quick-Clasps provide effortless on/off and secure the adjustable strap

Soft, elastic, adjustable woven straps are positioned well above and below the knee for comfort and to reduce pressure

Hard plastic outer shells are extremely strong

Non-marking Grip-Strip for use on any surface

Improved Quick-Clasps provide effortless on/off and security

Hinged with metal rivet for ease of movement while kneeling or walking

Soft elastic woven straps are placed well above and below the knee—ensures proper pad placement all day long without any binding behind the knee!

Upgraded, proprietary foam blend with new ventilation holes provide comfort, stability, and breathability

**ONE PARTNER.
