

STRONGARM®

JACK SADDLE PADS FOR TESLA VEHICLES

Precision engineered jack pads designed to fit Tesla Model S, 3, X, and Y ensure secure, damage free lifting. High density rubber absorbs impact and eliminates metal to metal contact, protecting batteries, pinch welds, rocker panels, and paint. Compact, reinforced pads fit most floor and trolley jacks, making them ideal for tire changes, brake service, and under vehicle maintenance.

030741
