

STRONGARM®

3-TON OFF-ROAD FLOOR JACK

Introducing the 3-Ton Off-Road Floor Jack. With a maximum lift height of 28.74 inches (with extension adapter), this jack offers exceptional access to a wide range of lift points on lifted trucks, Jeeps, and other off-road vehicles. A wrap-around steel skid plate keeps the jack stable in sand, gravel, dirt, and other soft terrain, preventing it from sinking or shifting under load. The handle lock detent ensures easy, safe positioning beneath the vehicle, while heavy-duty composite off-road wheels deliver smooth movement over uneven ground. The lightweight, hybrid steel-and-aluminum construction makes it both durable and easy to maneuver or store—the perfect companion for off-road adventures, shop use, or field repairs.
