

## 2 TON CAPACITY TRIPOD STAND MODEL 874A

# STRONGARM

Meets or exceeds ANSI standard for performance and safety

### ASSEMBLY:

- 1) Check and sort package contents according to size.
- 2) Bolt Rubber Saddle Pad (02) using Allen Screws (01) on to Saddle Base (03).
- 3) Slide Screw Rod (08) into Upright Tube (07), threads facing up. Install Bearing Washers (05), Bearing (06) and Handle (04) on the Screw Rod (08).
- 4) Install the base of the Saddle (03) into the Screw Rod (08).
- 5) Starting at the bottom, connect Long Brace Support (20) to Legs (18).  
**DO NOT TIGHTEN BOLTS UNTIL ASSEMBLY IS FINISHED.**
- 6) Bolt Medium Length Support Brace (17) to Legs (18).
- 7) Bolt Lower Support Flange (19) to Short Brace Strap (13) and Legs (18).
- 8) Install and bolt Upper Support Flange (22) to top of stand.
- 9) Slide Upright Tube (07) assembly into Upper Support Flange (22) and Lower Support Flange (19). Using the Detent Pin (12) lock Upright Tube (07) into place.
- 10) **MAKE SURE ALL BOLTS ARE TIGHTENED BEFORE USING.**

**WARNING !**  
**FOR YOUR SAFETY & TO PREVENT INJURY**

This is NOT a vehicle support stand.  
DO NOT use this stand beyond its rated capacity.  
DO NOT use this stand for lifting the vehicle.  
Use only on a hard, level surface.
