

5 X 7/8 CG60 POWERBLEND EDG CURVED EDGE FLAP DISC

Product # 503875 | Model #

- POWERBLEND EDG Super High Performance flap discs are specially designed to achieve optimal grinding results for fillet welds, corners, and other difficult to reach places
- Flaps are folded upwards at a 90° angle enabling optimal adjustment to the work piece geometry thereby achieving better grinding results in hard to reach places without compromising safety to the operator
- Made from specially formulated ceramic grains that are designed to stay sharp, ensuring faster stock removal rates and extreme wheel life
- POWERBLEND EDG ceramic grain flap discs offer up to 70% greater grinding performance over traditional zirconia products

TECHNICAL SPECIFICATIONS

Grit	CG60
Max. Speed	12,200 RPM
Pkg Qty	10
Size	5" x 7/8"
Type	27
