

# Arc Flash & Shock **Onsite PPE Assessment**

How do you keep track of your PPE inventory? Does your team have the right PPE they need to effectively and safely perform their work tasks? Is managing your PPE inventory difficult? **We can help with an onsite PPE assessment and review.**

## Onsite PPE Assessment includes:

- Complete electrical specific arc flash & shock PPE review.
- Written report provided with observations, recommendations and corrective actions.
- Identify PPE that requires testing.
- Establish PPE inventory list for internal tracking and maintenance purposes.

# Rubber Insulating Gloves **Testing Services**

Are your Rubber Insulating Gloves being tested **every six months** as per OH&S regulations?

**We can help you manage your testing!**

## Our Glove Testing Services include:

- All rubber insulating glove dielectric testing in a NAIL-accredited laboratory
- Cleaning, stamping, labeling and bagging
- Unique serial numbers for each glove

# Full Service PPE Testing and Certification Program

An effective Personal Protective Equipment testing program is crucial to ensure the PPE used by workers is safe, effective, and compliant.

We can work with you to provide an initial onsite PPE assessment and a go-forward plan to manage all of your electrical specific PPE, tools and equipment testing and certification.

**Let us take care of the guesswork and the logistics!**

Includes:

- PPE inventory management list
- Unique glove serial numbers heat applied
- Testing schedule with proactive reminders
