

HARNESS/LANYARD INTEGRAL COMBO

- 110-220 LB CAPACITY - 4' (1.2 M)

Product # **V8252434** | Model # **FBH-10000A5440-4**

Peakworks® Class-A harness/lanyard combos are designed to provide a basic all-in-one 4 ft fall protection compliance solution. Includes harness and integral shock absorbing lanyard.

- Features - This contractor harness with integrally connected shock absorbing lanyard is comfortable, durable, and lightweight, and does not require a snap hook for a dorsal connection
- Capacity - Trusted and reliable for all day wear, the 4-ft long lanyard is designed to hold capacities between 110 - 220 lb. (50 - 100 kg) or 200 - 350 lb. (90 - 159 kg) and comes with a snap hook
- Certification - Providing worker safety and meeting regulatory compliance, the harness is CSA certified to CSA Z259.10-18 while the lanyard is CSA certified to CSA Z259.11-17, making these harness/lanyard combos a safe and economical choice
