

FORD® TRITON SPARK PLUG SHIELD EXTRACTOR KIT

Product # H3661 | Model #

- Designed to extract frozen or broken spark plug ground electrode shields in Ford Triton engines 2004 to present – 4.6LT, 5.4LT, 6.8LT V-10
- The elongated plug has a stainless steel shield – as the carbon deposit builds-up, the shield sticks and stays in the cylinder head spark plug well
- Use the specially machined guide with tap 9mm x 8"L (203.2mm) to tap the shield
- Use the extractor to pull out the stainless steel sleeve
- Problem solved; saving time and a huge expense
- Kit Contains: 1 each: guide, Tap 9mm x 8"L (203.2mm), extractor, nut, washer and 4 rubber stopper caps, all in a blow mold case
