

# COVER PLATE - 2" X 4.25"

Product # **S19002** | Model #

Cover plates are a must-have accessory for any welding helmet. They are easily placed over a passive or ADF style filter lens to provide instant protection from pitting, scratching and other surface damage.

- Made of durable and heat-resistant materials containing CR-39 Monomer
- Combines the optics of glass with the added durability of thermostat material
- Superior resistance to scratches, heat, and chemicals
