

3/32" JET-KUT GOLD SUPER PREMIUM M2 H.S.S. JOBBER DRILL BIT

Product # 570256 | Model #

- JET-KUT® GOLD drill bits are the most advanced drill bits available in the Canadian market
- These bits feature razor sharp 135° split point self centering tips, eliminating “walking” and the need for centre punching and penetrate on contact
- The superior bronze oxide (gold) ground flute finish reduces friction, allowing outstanding drilling performance with less operator pressure
- Special flute form enhances chip ejection, reduces drill retractions (woodpeckering) and improves coolant flow to the tip
- Heavy duty, high molybdenum steel offers greater strength and rigidity, longer lasting cutting edges and improved hole tolerances, permitting higher feed rates
- JET offers the TORQUE DRIVE® three flat shank for chuck to bit gripping power that is unparalleled in the industry (available on 3/16" diameter and larger bits)
- Greatly reduces chuck and shank damage and increases cutting efficiency
- Drill up to 4 times faster and last up to 7 times longer than regular drill bits in steel, stainless steel and alloy steel applications
