

AIR FILTER 1/4" NPT - INTERMEDIATE

Product # 408873 | Model # AFI14

- Air filter is designed to eliminate dust, water and other impurities from reaching air tool, extending tool life
- Die Cast aluminum filter head, polycarbonate bowl with a steel bowl guard & high performance sintered Bronze filtering element
- Designed with a Separator & shield for efficient moisture separation
- Maximum Working Air Pressure: 145 PSI
- Ambient Temperature: 0-60°C (32-140°F)
- Modular Mounting
- Vertical Mounting
- Conforms to ISO 5782-1
- Wetted Components: Aluminum, brass, steel, acetal, stainless steel and nitrile
- Inlet pressure 90 PSI (6 BAR) and pressure drop 4.5 PSI (0.3 BAR)

TECHNICAL SPECIFICATIONS

Bowl Size (Filter)	1.08 oz (32 ml)
Height	5.51" (140 mm)
Max. Flow	80 cfm (2,250 LPM)
Port Size	1/4"
Width	2.16" (55 mm)
