

PERSONAL ANTI FATIGUE MAT INSOLE - ANTI STATIC - M1213

Product # PAMESD-M1213 | Model # F99E1213

MEGAComfort's Personal Anti-Fatigue Mat (PAM) ESD insole is ergonomically designed by a Podiatrist, using a patented combination of high density dual layer 100% memory foam for anti-static footwear only. ESD threads provide tested electro-static dissipation. PAM ESD doesn't make regular footwear ESD compliant. MEGAComfort insoles have been clinically proven and field tested to reduce pain and fatigue while increasing balance and comfort. The PAM ESD Insole provides maximum shock absorption and comfort in anti-static footwear, making them far more effective than the expensive ESD matting. Ideal for stationary and mobile workers. For use with Anti-Static Footwear only.

- ESD anti-static threads provides electro-static dissipation
- Made of patented 100% dual layer memory foam
- Ergonomically designed by a doctor
- Soft contoured arch support provides balance, comfort and cushioning
- Silver ion anti-microbial technology in top cloth offering anti-bacterial, anti- perspiration and anti-odor protection

TECHNICAL SPECIFICATIONS

Arch Type	Low Medium High
For Use In	Anti-Static Footwear Only
Gender	Unisex
Material	Dual-Layer Memory Foam Top Cloth
Prevents	Fatigue
Size	Men: 12-13
Toe Shape	Round Toe
