Product # **V8104654** | Model # **SA-5405-4**

SP (Shock Pack) lanyards are comprised of tear webbing which is woven in a manner that allows the webbing to tear when it has a load applied to it. This tearing absorbs a significant amount of downward force under load, reducing injury. This tear webbing is folded and shrink-wrapped into a compact 1 x 2 x 6 (2.5 x 5 x 15 cm) pack that is sewn into the lanyard next to the body connector.

- Certified to CSA Z259.11-05 standards
- Made with a superior grade, heavy-duty 1" (25 mm) polyester webbing for maximum strength with tear webbing shock absorber
- PeakWorks E4 SP lanyards have a capacity range of 110–220 lbs (50–100 kg)
