

# VERTICAL LIFELINE - PREMIUM EXTRUDED CO- POLYMER FIBRE - ANCHOR END CARABINER/TRAILING END BACK SPLICE - 50 FT.

Product # V84013050 | Model # VL-1115-50

- Certified to CSA Z259.2.5-2012 and meets ANSI Z359 standards
- Specially designed from rope made using high-strength polysteel
- Polysteel is an extruded co-polymer fibre that yields an extremely high-strength, lightweight rope with excellent resistance to acids and alkalis
- 5/8" (16 mm) in diameter
- Minimum breaking strength 6,000 lb (27 kN)
- Back splice at the trailing end to prevent the rope grab from coming off the end of the lifeline

## TECHNICAL SPECIFICATIONS

End Configuration	Carabiner (anchor end), back splice (trailing end)
Length	50 (15.2 m)
Supersedes	V84011050
