

CANADIAN WATERPROOF HOODED RAIN JACKET - PVC-COATED POLYESTER - OLIVE GREEN - 2XL

Product # **V3242040-2XL** | Model # **J35 345H**

The Ranpro® Canadian 100% Waterproof Hooded Rain Jackets is made from double-coated PVC over polyester fabric. Built for comfort and functionality, this heavy-duty jacket maintains flexibility in cold weather environments.

- **Material** – Made from heavy-duty 13 oz/yd² PVC double-coated on high tenacity polyester fabric, these rain jackets are durable enough to have increased softness with their roomy raglan sleeves and cold flex in the harshest conditions
- **Design** – Being 100% waterproof and windproof, the extraordinary fabric of these jackets is marine/fish oil resistant, keeping you protected from extreme weather condition, rain or harmful liquids during work. In addition, the electronically welded seams ensure water tightness
- **Features** – Designed with increased wear and tear resistance, the added utilities in these green safety jackets include an internal drawstring for adjustability, attached hood, a concealed corrosion resistant brass snap closure and an inner storm flap to keep out elements

TECHNICAL SPECIFICATIONS

Attributes	Abrasion Resistant Marine/Fish Oil Resistant Oil Resistant Waterproof Windproof, Windproof Marine/Fish Oil Resistant Oil Resistant Waterproof
Closure Type	Snap Double Placket
Color	Olive Green
Duty Level	Heavy Duty
Gender	Men
Material	PVC/Polyester, PVC/Polyester PVC/Poly/PVC
Material Thickness	13 oz/yd²
Seam Type	Radio Frequency Heat-Welded, Electronically-Welded
Size	2XL
Special Features	Cold Flex
