

2 STAGE 80/50 TON AIR HYDRAULIC TRUCK JACK - SUPER HEAVY DUTY

Product # 030477 | Model # 780SHD

STRONGARM

- There isn't much that you won't be able to lift with this Super Heavy Duty 2 Stage Air Hydraulic Jack, heavy duty trucking, agricultural, construction, military, even aircraft - this does it all!
- The piston head seal design is borrowed from industrial technology providing a superior low and high pressure seal, giving this jack a much better hold under severe load conditions
- The extra long 138cm (54") handle can be locked in 3 positions for easy positioning of this jack in hard to reach places
- An integral Descent Metering Valve maintains a controlled and safe lowering of the load
- Single piece base construction provides superior strength for increased load stability
- Double polished chromed pistons allow for much tighter tolerances which reduce oil bypassing and reduced ram scoring
- Air assisted lowering speeds up ram retraction
- Built-in overload safety valve prevents damage to unit due to excessive load
- Comes with 2 extensions (75mm & 45mm) and saddle adaptor
- Units are tested to -25°C and +45°C as well as off centre loading to ensure a long life under even the harshest conditions

TECHNICAL SPECIFICATIONS

Capacity	80 T (1st Stage) / 50 T (2nd Stage)
High Height	50 Ton - 440 mm (17.32") Lift - 210 mm (8.27"), 80 Ton - 340 mm (13.39") Lift - 110 mm (4.33")
Low Height	230 mm (9.06")
Product Weight	233 lb (105 kg)
Shipping Weight	240 lb (109 kg)
Working Air Pressure	80 Ton - 0.8 – 1.2 Mpa (116 – 174 PSI)
