47" FOLDING MECHANIC'S PAD

SAFETY AND GENERAL INFORMATION

For your safety, read, understand, and follow the information provided with and on the folding work pad. The owner and operator of this pad shall have an understanding of safe operating procedures before attempting to use. The owner and operator of this device shall be aware that the use and care of this device may require special skills and knowledge. Instructions and safety information shall be conveyed in the operator's native language before the use of this product is authorized. If any doubt exists as to the safe and proper use of this folding work pad, remove from service immediately. Inspect before each use. Do not use the device if cracked or damaged parts are noted. A folding work pad that appears damaged in any way or operates abnormally shall be removed from service immediately until checked by qualified personnel. There are no replacement parts available for this device.

PRODUCT DESCRIPTION

This work pad is designed to provide the mechanic or inspector with a stationary, stable, and comfortable platform on which to lay and perform repair and/or inspection duties and represents the only authorized use of this product. This folding work pad is designed for intermittent use on clean, smooth, dry, level surfaces. Although the folding work pad cover is water resistant, it is not waterproof and should never be used in standing water, in the rain or snow. Additionally, the folding work pad cover is not chemical resistant and should never be exposed to any driveway and garage chemicals such as gasoline, turpentine, motor oil, grease, degreasers, detergents, etc.

HOW TO USE

Determine that the application and environment are suitable for this device. Unfold the folding work pad and lay the side containing the Velcro fasteners down on a clean, smooth, and level surface. Carefully and gently lay upon the work pad. When done, wipe the pad with a clean, damp cloth. When the cover is thoroughly dry, fold the pad together at its seam, securing it by pressing the Velcro fasteners together.

CLEANING AND MAINTENANCE

No maintenance of this product is necessary beyond wiping clean with a clean, damp cloth. After the pad cover is dry, fold and store in a cool, clean, dry environment. Do not store this device near flames, caustic chemicals, or in direct sunlight. Do not apply wax, household cleaners or other chemicals to this product.

WARNINGS

Before using this device, read, understand, and follow all printed materials provided

- **DO NOT** use in close proximity to gasoline, propane, or natural gas, etc. This device is not suitable for use in explosive and/or combustible environments or when static discharge must be controlled
- **DO NOT** expose to caustic chemicals or common garage or household chemicals
- **DO NOT** expose to fire or high heat (+52 °C/125 °F)
- **DO NOT** use as a flotation device
- **DO NOT** fall on or jump on this mechanic's working mat

Failure to heed these markings may result in personal injury and/or property damage
